

In about 1993 Jane Woodworth began collecting historical information about Fern Prairie. One of the places she searched was the Camas-Washougal Historical Society Museum. She said, historian Vincent Ast was on duty that day, and brought out a Fern Prairie School roll book with students names listed from 1902 to 1908. Jane said Vincent was very protective of the book. He had it stored in a special drawer. She copied the students names from that roll book as below.
